

TT Shirt

PRODUCT SPECIFICATIONS

Description: Glad collar shirt with two chest pockets, with reflective tape on top and bottom of chest.

Identification: Navy sleeves, bottom half and pocket flaps. Hi-viz lime green front, hi-viz orange at the back.

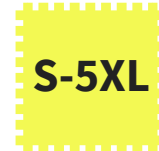

COMPOSITION

65/35 Poly/Cotton material

FEATURES

- High Visibility
- Directional Awareness
- By adopting this new Directional signalling system, where **ACID/GREEN = COME** (facing) and **ORANGE/RED = GO** (unsighted/turned away). Not only do you see the person, but you know that the person wearing acid / green on their chest may be able to see you.
- **Security** - Highly visible people are easy to spot in unauthorised areas. Accidents are also minimised, and people are more cautious and aware.
- **Productivity** - Increased productivity, as all employers are very aware of every movement or lack of movement thereof.
- **Departmental Supervision** - By giving departments differing peripheral coloured **Come n GO** garments, one can see at a glance who is in the correct department and who is wondering around in other departments.
- **Savings** - Uniform and a high visibility vest in one.

Sizes

Unisex

USES

Mining, Factories, Construction, Manufacturing
